INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Mauriceville Municipal Utility District
Orange, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of Mauriceville Municipal Utility District as of and for the year ended December 31, 2018 and the related notes to the financial statements, which collectively comprise the Mauriceville Municipal Utility District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Mauriceville Municipal Utility District as of December 31, 2018, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on page 4 through 8 and the Statement of Revenues, Expenses and Changes in Net Position – Budget and Actual page 22 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standard Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information on pages 4 through 8 in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on this information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The required supplementary information on page 22 has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the financial statements taken as a whole.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Mauriceville Municipal Utility District's basic financial statements. The Texas Supplementary Information listed in the Table of Contents on pages 23 through 32 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The Texas Supplementary Information listed in the Table of Contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The current year financial information included in these schedules has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The Schedules of Services and Rates and Board Members, Key Personnel and Consultants have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on this information.

Management's Discussion and Analysis
For The Year Ended December 31, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Mauriceville Municipal Utility District, we offer readers of the Mauriceville Municipal Utility District financial statements this narrative overview and analysis of the financial activities of the Mauriceville Municipal Utility District for the fiscal year ended December 31, 2018. We encourage readers to consider the information presented here in conjunction with the independent auditor's report and the District's financial statements, which follow.

FINANCIAL HIGHLIGHTS

- The liabilities of the Mauriceville Municipal Utility District exceeded its assets as of December 31, 2018, by \$3,040,142 (net position).
- The Mauriceville Municipal Utility District's total net position increased by \$796,411, which included a prior period adjustment reducing net position by \$182,999. The District had expenses associated with all activities totaling \$3,044,241 and total revenues were \$4,023,651.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Mauriceville Municipal Utility District's basic financial statements. These financial statements are comprised of two components: 1) financial statements, and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Financial statements. The financial statements are designed to provide readers with a broad overview of the Mauriceville Municipal Utility District's finances, in a manner similar to a private-sector business.

The District utilizes one fund to conduct all activities of the District.

The Statement of Net Position presents information on all of the Mauriceville Municipal Utility District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decrease in net position may serve as a useful indicator of whether the financial position of the Mauriceville Municipal Utility District is improving or deteriorating.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (e.g., earned but unused vacation).

The financial statements can be found on pages 9 and 10 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the Financial Statements can be found on pages 12 through 21.

Other information. In addition to the basic financial statements and accompanying notes, required supplementary information presents a budgetary comparison schedule for the District to demonstrate compliance with the budget. This required supplementary information can be found on page 22.

NOTES TO THE FINANCIAL STATEMENTS

MAURICEVILLE MUNICIPAL UTILITY DISTRICT

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2018

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Mauriceville Municipal Utility District (the "District") have been prepared in conformity with accounting principles applicable to governmental units which are generally accepted in the United States of America. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

Reporting entity

On July 1, 1995, Mauriceville Special Utility District began operating the water system which was previously operated by the Mauriceville Water Supply Corporation. The District acquired title to the assets from Mauriceville Water Supply Corporation. on April 11, 1996, at the time of the issuance of Utility System Revenue Bonds. The Mauriceville Water Supply Corporation ceased operations upon the transfer of assets to the Mauriceville Special Utility District.

The Mauriceville Special Utility District was organized pursuant to the provisions of Section 59 of Article XVI of the Constitution of Texas by Order of the Texas Natural Resource Conservation Commission on Docket No. 94-0492-DIS and operates under Chapter 65 of the Texas Water Code, as amended. On July 25, 2007, the Texas Commission on Environmental Quality (TCEQ) approved the application for conversion of Mauriceville Special Utility District to a municipal utility district operating under Texas Water Code Chapter 54. The conversion permits the District, with voter approval, to levy and collect a property tax to meet bonded debt service requirements.

The District provides service to the unincorporated area of Mauriceville, Texas, and the incorporated areas of Orange and Vidor, Texas, which includes customers residing in Orange, Jasper and Newton counties. The District is governed by a Board of Directors consisting of five individuals who are residents or owners of property within the District and are elected by voters within the District.

The following is a summary of the District's significant accounting policies:

The District has adopted Governmental Accounting Standards Board Statement No. 14, "The Financial Reporting Entity". In accordance with this statement, a financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

As required by generally accepted accounting principles, these financial statements present the activities of the District which is considered to be the primary government as well as the reporting entity. There are no other organizations which meet the criteria for inclusion herein as part of the financial reporting entity.

MAURICEVILLE MUNICIPAL UTILITY DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2018

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes, if any were levied, would be recognized as revenue in the year for which they were levied. Grants and similar items are recognized as revenue when eligibility requirements imposed by the provider have been met.

Revenues are distinguished as operating revenue and expenses from non-operating items. Operating revenue and expenses generally result from providing services, and producing and delivering goods in connection with the District's ongoing operations. The principal operating revenues of the District are charges to customers for water and sewer services. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as non-operating revenue and expenses.

Using Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported period. Actual results could differ from those estimates.

Budgetary Control

The budget is adopted on a basis consistent with generally accepted accounting principles (GAAP). Budgeted amounts shown on the budget to actual statements are as originally adopted or as amended by the District.

Inventory

Inventory is valued at cost, determined by actual physical count. Consumable supplies are considered an expense when purchased.

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, sidewalks and similar items) are reported by category in the financial statements. Assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government is depreciated using the straight-line method over the following useful lives:

Assets	Years
Buildings	5 - 40
Improvements other than buildings	10 - 40
Equipment	3 - 15

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2018

1) **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**

Vacation

All employees shall be eligible to receive vacation leave after completion of an initial three month evaluation period, but vacation cannot be taken nor paid upon separation during the first year of employment. After the first anniversary of employment, vacation leave is credited to the employee's account on the first day of each calendar year.

Vacation accrues at the end of the first year of continuous service. Regular employees earn vacation leave in accordance with the following schedule:

- 1 to 4 years of employment – earns 10 days per year
- 5 to 10 years of employment – earns 15 days per year
- Over 10 years of employment – earns 20 days per year

Unused vacation leave of up to 20 days earned in the current year may be carried over to the District's next fiscal year with the approval of the General Manager. Beginning January 1, 2020 and all subsequent years, all unused vacation days over and above the allowable 20 days will be paid to the employee at the rate of \$40 a day on the 1st pay period of the new year.

Personal/Sick Leave

Regular full-time employees are entitled to personal leave beginning on the first date of employment. Qualified employees accrue 4 hours of personal leave each pay period. Unused personal leave of up to 20 days earned in the current year may be carried over to the District's next fiscal year with the approval of the General Manager. Beginning January 1, 2020 and all subsequent years, all unused personal days over and above the allowable 20 days will be paid to the employee at the rate of \$40 a day on the 1st pay period of the new year.

The District's liability as of December 31, 2018 for compensated absences is \$38,969, which was accrued and reported on the face of the financials.

Restricted Assets

Resources set aside for the repayment of revenue bonds, are classified as restricted assets on the Statement of Net Position because their use is limited by applicable bond covenants. Restricted resources are used first to fund related appropriations and unrestricted resources are used after restricted resources are depleted.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments (including restricted assets) with maturities of three months or less when purchased to be cash equivalents.

MAURICEVILLE MUNICIPAL UTILITY DISTRICT

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2018

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Risk Management and Participation in Risk Pools

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. These risks are protected by participation in the Texas Municipal League Intergovernmental Risk Pool. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage.

Subsequent Events

In accordance with ASC 855, the management of Mauriceville Municipal Utility District has evaluated subsequent events through March 6, 2018, the date on which the financial statements were available for issue.

2) CASH AND INVESTMENTS

Texas statute and the District's investment policy authorize the District to invest in U.S. Treasury bills, notes, and bonds, which are backed by the full faith and credit of the United States government, U.S. governmental agency securities, and insured or collateralized time deposits issued by banks domiciled in the State of Texas.

At year-end, the carrying amount of the District's deposits was \$925,266, and balance of the deposits per the financial institution was \$938,678. The Certificates of Deposits carrying amount and balance per the financial institution was \$1,694,271 at December 31, 2018. All deposits as of the financial statement date were insured by FDIC coverage or collateralized by a letter of credit and pledged securities held by the depository's agent in the District's name.

The District addresses its credit risk, custodial credit risk and concentration of credit risk by investing only in local financial institution instruments that are fully insured or collateralized. The District addresses its interest rate risk by investing primarily in short-term instruments.

Investments made by the District are summarized below:

3) PROPERTY TAXES

On July 25, 2007, the Texas Commission on Environmental Quality (TCEQ) approved the application for conversion of Mauriceville Special Utility District to a municipal utility district operating under Texas Water Code Chapter 54. The conversion permits the District, with voter approval, to levy and collect a property tax to meet bonded debt service requirements. No tax has been levied since the conversion to Mauriceville Municipal Utility District.

MAURICEVILLE MUNICIPAL UTILITY DISTRICT

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2018

5) LONG-TERM DEBT (continued)

Pledge of Revenues

The bonds constitute special obligations of the District and are payable solely from and ratably secured by an irrevocable first lien on and pledge of the Net Revenues resulting from the operation of the District's water system.

Compliance with Reserve Fund and Sinking Fund Requirements

The District's 2011 Bond Orders require a Reserve Fund equal to the annual debt service requirement of \$1,685,681. The District met that requirement at December 31, 2018 with three certificates of deposit totaling \$1,694,271.

The District's 2011 Bond Orders require an Interest and Sinking Fund equal to the pro rata accumulation of the next remaining debt service payment. The District met that requirement at December 31, 2018 with an Interest and Sinking Fund checking account balance of \$141,655.

Compliance with Service Rate and Gross Revenue Requirements

The District's 2011 Bond Orders require that service rates be sufficient to generate an operating income before depreciation and amortization equal to or greater than 130% of the annual debt service requirement. The District had a \$126,091 shortfall for the year ended December 31, 2018.

6) OTHER REQUIRED DISCLOSURES

Generally accepted accounting principles require disclosure, as part of the basic financial statements, of certain information:

- A) Segment information for certain enterprise funds. This requirement is effectively met in this report because the District maintains only fund.
- B) Personnel expenses exceeded budget by \$70,280; purchased and contract services exceeded budget by \$65,921; consumable supplies and materials exceeded budget by \$106,280.

7) PENSION COSTS

The District and its employees do not participate in any public retirement system provided by the State of Texas or any of its political subdivisions.

The Board of Directors approved the District's participation in a Section 457 plan in the year ended December 31, 2000. On July 1, 2007, the plan changed from an Enterprise Plan to an Expert Plan with American Funds. This change was supported by employee vote at a May 17, 2007 board meeting. The plan is qualified and the contributions are considered deferred compensation for the employees. Since the amount contributed is not subject to the general creditors of the District, the funds are not presented in the financial statements. The District contributes 7% of each employee's base pay. The contribution percentage is determined each year as part of the budget process and the District has no obligation to make this contribution in future years. The amount paid in 2018 was \$47,983.

MAURICEVILLE MUNICIPAL UTILITY DISTRICT

NOTES TO THE FINANCIAL STATEMENTS DECEMBER 31, 2018

8) COMMITMENTS AND CONTINGENCIES

The District is a party to various claims and legal actions arising in the ordinary course of operations. In the opinion of management, all such matters are adequately covered by insurance or if not so covered, are without merit, or involve such amounts that unfavorable disposition would not have a material effect on the operation of the District.

9) TAX ABATEMENTS

The District does not levy taxes and has not awarded any Tax Abatement Agreements under Texas Property Redevelopment and Tax Abatement Tax Code Chapter 312.

10) CONTINGENCY

On August 28-29, 2017, the Mauriceville Municipal Utility District physical plant, its supporting infrastructure and its customer base were negatively impacted by the record rainfalls of Tropical Storm Harvey. The District remained operational and had the liquid assets to address ongoing required system repairs and replacements on a timely basis. District damage was covered by commercial insurance, with the exception of the emergency repairs to the residential sewer grinder pump systems and the costs beyond the policy limits associated with the replacement of the District's primary office building. Management does not anticipate that the replacement costs will have a material negative impact on the financial position of the District. The Federal Emergency Management Agency (FEMA) is assisting the District in recovering costs associated with the emergency repairs of the residential sewer grinder pump systems damaged by Harvey, and costs exceeding policy limits associated with the replacement of the District's primary office building. The total amount of FEMA reimbursements is unknown at this time. The District has not recognized revenue or recorded a receivable for potential amounts to be received from FEMA.

11) PRIOR PERIOD ADJUSTMENTS

During the year ended December 31, 2018, management determined that the calculation for accumulated depreciation was incorrect. Accumulated depreciation was understated by \$182,999.

12) DEFICIT IN NET POSITION

In the mid 1990's, the District, upon determining to offer sewer service to its current and future water customers, issued approximately \$16.7 million in water and sewer system revenue bonds to the Texas Water Development Board (TWDB) for the construction of a sanitary sewer collection and treatment system. The District's debt was originally issued with increasing debt service requirements over the life of the bonds with the expectation that an increase in customer base would result in additional revenues. Because the customer increase did not meet expectations, by 2005 the District was facing significant increases in rates to meet its debt service obligations. With consistent annual expenditures in excess of revenue necessary to meet debt service requirements, the shortfall resulted in a deficit in net position of the District.

In 2005, the District requested its sole bondholder, the TWDB, to restructure the District's debt with a level debt service structure. Because of federal regulations governing some of the loans to the District, TWDB was limited in its ability to accommodate the District, but was able to provide partial relief through interest deferral. In 2011, the District was granted the ability to issue Revenue Refunding Bonds which extended the term of the existing debt schedule by five years and reduced the annual debt service requirement and yielded a net present value savings of \$1,175,795 for 2011. Since the restructuring of the District's debt service requirements in 2011, the District has consistently demonstrated the ability to operate with revenues exceeding expenditures.

In accordance with the terms of the District's 2011 Bond Orders, operating income before depreciation and amortization (\$1,359,424 + \$705,870 = \$2,065,294) should have exceeded 130% of the annual debt service requirement (\$1,685,681 x 1.30 = \$2,191,385). As discussed in Footnote 5, the District had a shortfall of \$126,091.
