

# Detailed Inventory

**Purpose of this worksheet:** To provide a format water systems can use to track materials for each service line in the distribution system.

**General Instructions:** Each row in this worksheet represents one service line connecting the water main to the customer's plumbing. The worksheet includes required and recommended elements; the columns with the aqua shading are required by the LCRR. The worksheet includes examples in rows 12 - 20 and is formatted for approximately 10,000 entries.

**Note:** Cells that have a superscript <sup>x</sup> are required fields; Cells that have a superscript <sup>‡</sup> are conditionally required fields and can impact formulas throughout document.

TCEQ-20943 (Rev. 1/2/2022)

Location Information								System-Owned Portion				Customer-Owned Portion	
Unique Service Line ID	Location Identifier <sup>x</sup>							System-Owned Portion Service Line Material Classification <sup>x</sup>	If Non-Lead in Column J, Was Material Ever Previously Lead? <sup>‡</sup>	Service Line Installation Date <sup>‡</sup>	Notes	Customer-Owned Portion Service Line Material Classification <sup>x</sup>	Service Line Installation Date <sup>‡</sup>
	Street Number <sup>x</sup>	Street Name <sup>x</sup>	City <sup>x</sup>	Zip Code <sup>x</sup>	Other Location Identifier <sup>‡</sup>	GPS Coordinate - Latitude (decimal degrees)	GPS Coordinate - Longitude (decimal degrees)						
<i>A Unique ID is recommended for each service line.</i>	<i>Water systems must track addresses of all service lines in their internal inventory. For the publicly accessible version, location identifiers are required for lead and galvanized requiring replacement. If the system does not use addresses for their location identifier, other options could include a landmark, intersection, block, or other details to specify service line locations. If using GPS coordinates, utilize the GPS Coordinate - Latitude/Longitude fields and include 5 decimal places.</i>							<i>Dropdown list includes recommended subclassifications. If "Non-Lead Other", describe in Notes field</i>	<i>Select Yes, No, or Don't know. Important for determining if downstream/customer-owned galvanized service line requires replacement</i>	<i>Dropdown list when the service line was installed or replaced</i>	<i>Use this field for documenting additional relevant information, including when classification changes.</i>	<i>Dropdown list includes recommended subclassifications. If non-lead other, describe in Notes field.</i>	<i>Date, year, or estimated date range when the service line was installed or replaced</i>
